
PAINT TYPE	Acrylic paint based on a terpolymer dispersion.
USE	For ceiling panels.
SPECIAL PROPERTIES	Penetrates well into porous substrates and leaves a partly open and even surface without structure to provide good acoustic properties.

TECHNICAL DATA

Gloss	Matt.
Delivery viscosity	Brookfield SP4 -60 RPM: 2200 cP ± 500 cP.
Specific gravity	1.54-1.60 kg/l
Solids by weight	60 ± 1 %.

APPLICATION DETAILS

Application	Curtain coating - spraying. The paint is developed especially for curtain coating.
Drying method	IR and air-drying.
Drying	Approx. 20 s in IR-oven and 1½ minute at 150-180 °C.
Recommended amount applied	130-150 g/m ²

HEALTH AND SAFETY See Safety Data Sheet.

ADDITIONAL INFORMATION For curtain coating the paint is diluted with approx. 20 vol.% water to viscosity 30 sec. DIN cup 4.

Ignition Loss: 10 ± 2 %
PCS value MJ/kg 1.38
